LEARNING BY DOING (LBD) MODEL

The "Learning by Doing" Model is an educational philosophy that emphasizes the importance of hands-on experiences in the learning process. In the context of colleges & universities, a variety of activities can be incorporated to bring this model to life.

These activities are often aimed at making abstract or theoretical knowledge more concrete and relevant by letting students experience it directly. Here are some activities & programs that can come under the "Learning by Doing" model.

CORPORATE IS CUSTOMER (CIC) MODEL

The Corporate is customer (CIC) Model is a transformative approach to education & training, positioning corporations as primary customers. In this paradigm, educational institutions like GIBS view their faculties as the machinery, geared to equip and refine students, who are seen as the products. These 'products', once honed and polished, are then presented to corporates

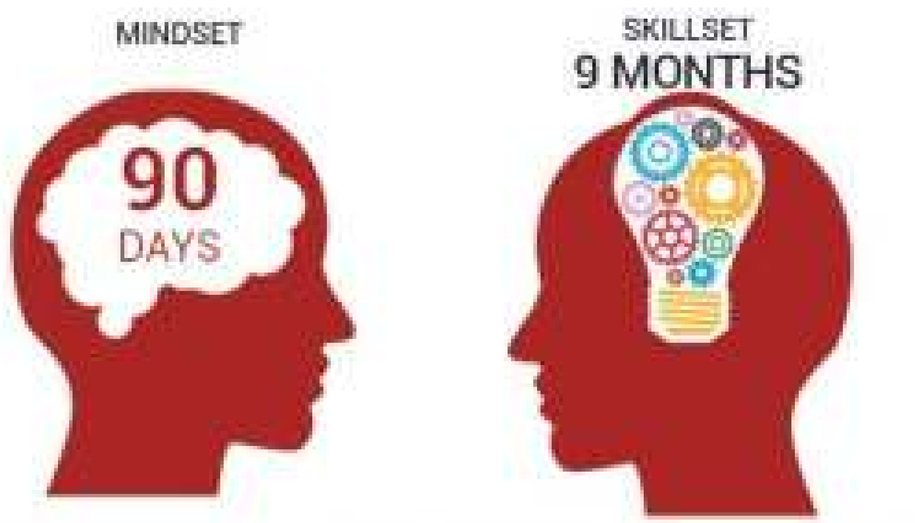

GIBS places its highest focus on corporates because they are not just recruiters but customers, investing in the form of fee. Recognizing this dynamic, GIBS ensures that its curriculum, training, & offerings are tailored to meet the evolving needs and expectations of the corporate world, guaranteeing a premium, industry-ready product.

90 DAYS TO 9 MONTHS MODEL

The Power of Mindset is the new psychology for Growth & Success. The 90 days to 9 months model, concentrates on building the mindset of the student in first 90 days of college. Then students will work on building skill sets to transform their future. After 9 months, students can use both mindset & skill-set to achieve success in their life. Once this formula is understood, students are ready to face any situation without fear.

"MINDSET IS MORE POWERFUL THAN SKILLSET"

CORPORATE TESTIMONIALS

GIBS is an esteemed institution where "theory meets practical". In this fast changing and dynamic business environment, what makes an organization more competitive is that your people have an edge over your competitor. GIBS is that you have talents who are practical and close to business in terms of implementing their learning. The syllabus, including the practical exposure, helps students to be "self starters" & to become part of your value chain from the Day One.

-Vikrant Hiremath, Capgemini

We have received a lot of value so far from our Corporate Partnership with GIBS Business school. In particular we are seeking access to fresh thinking & ideas across a broad spectrum of knowledge relating to the effectiveness of office-based work. We have quickly achieved this & are now developing innovative answers to a range of important practical challenges that we face.

- Mr. Mohan Kumar, Wipro

GIBS prepares its students for the corporate culture & instil the highest degree professionalism. I found that GIBS students have the same values that we do, in particular, commitment to complying with ethical standards, community service, & service excellence. We are a proud employer of the intellectual and diverse population of GIBS.

- Poonam Srivastava, ICICI Bank

I think what sets GIBS students apart from their peers is the experiences that they have very strong teamwork skills. Being in the retail field, I think they have had some amazing internships that are beneficial to our company.

- Allison D' Souza, Tommy Hilfiger

The area that GIBS students are most prepared for when entering the workforce is being real-world ready. They are able to adapt to a work environment, or not really being on a college campus anymore, and they have a realistic expectation of how to behave & how to conduct themselves.

- M J Narthan, Ethnus

The thing that sets GIBS students apart from their peers is that they are a very polished group of students. They present themselves very well and they are able to utilize their professional experience to cater themselves to what employers are looking for.
